

OLASEIGBE RAPHAEL

Frontend & Full-Stack Software Developer

Kaduna State, Nigeria | **Phone:** +234 908 416 7740 | **Email:** raphaeldiego79@gmail.com

GitHub: github.com/Raph3rr | **Portfolio:** raphael-portfolio-five.vercel.app

Professional Summary

Motivated and detail-oriented Frontend & Full-Stack Software Developer with a strong academic foundation in Computer Science and specialized diplomas in software engineering. Passionate about building scalable, modern, and user-centric web applications. Proven expertise in designing React-driven frontends, architecting RESTful Node.js APIs, and integrating multi-platform AI models and APIs. Adept at cloud deployment, responsive web design, and collaborative software engineering workflows.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend Development:** React.js, Vite, Tailwind CSS, Responsive Web Design
- **Backend Development:** Node.js, Express.js, RESTful API Architecture
- **Databases:** MySQL
- **AI Integrations & APIs:** Google Gemini API, DxGPT API, Microsoft Azure AI Translator, MedlinePlus API
- **Tools & Cloud Platforms:** Git, GitHub, Vercel, Render

Professional Experience

Freelance Full-Stack Developer | *Self-Employed*

Designed, built, and deployed full-stack web applications for personal clients and small businesses.

- Architected responsive, accessible, and high-performance frontends using React.js and Tailwind CSS.
- Engineered scalable backend systems using Node.js and Express.js, handling database connectivity and external API integrations.
- Managed end-to-end continuous deployment pipelines using Vercel for frontend assets and Render for backend services.
- Collaborated directly with stakeholders to gather requirements, deliver features on schedule, and maintain code bases.

Software Development Intern (SIWES) | *Cloudsoft Consulting Limited*

Participated in core software engineering cycles within an active consulting environment.

- Collaborated with senior software engineers on real-world web application development.
- Strengthened core competencies in full-stack web architecture, code optimization, and frontend UI design.
- Utilized version control systems (Git/GitHub) to manage branches and execute software workflows.

Featured Projects

LikitaAI – AI-Powered Healthcare Information Platform

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, Google Gemini API, DxGPT API, Azure AI Translator, MedlinePlus API

Live Demo: likitaai.vercel.app | **GitHub:** github.com/Raph3rr/LikitaAi

- Independently conceptualized, architected, and deployed an end-to-end healthcare assistance application.
- Developed a multilingual AI symptom checker supporting English and Hausa to improve healthcare accessibility.
- Seamlessly integrated multiple AI and medical APIs, including DxGPT, Google Gemini, Microsoft Azure AI Translator, and MedlinePlus.
- Built search functionality for real-time disease lookups, pharmaceutical information retrieval, and preventive health insights.
- Deployed the responsive React client on Vercel and the Node/Express web server on Render.

Cradle – Community Platform for Designers & Developers

Tech Stack: React.js, Tailwind CSS

Live Demo: cradle-dun.vercel.app | **GitHub:** github.com/Raph3rr/Cradle

- Engineered a high-converting, modern SaaS landing page designed for technical user bases.
- Implemented modular, reusable React component structures and fully responsive layouts with custom Tailwind styling.
- Optimized asset delivery and navigation for smooth, interactive scrolling experiences.

Education

- **Bachelor of Science (B.Sc.) in Computer Science**

Kaduna State University, Nigeria

Certifications

- **Diploma in Software Development** – Cloudsoft Consulting Limited
- **Certificate in Web Development** – Khemsafe Computer Institute

Core Competencies

Frontend Engineering • Full-Stack Development • REST API Architecture • Responsive Web Design • AI Integration • System Optimization • Cross-Functional Team Collaboration
